

Review Article

Short-Term Evaluation of the Effectiveness of Shock Wave Therapy (Diamagnetic Shock Waves) Versus Physio Kinesiotherapy in Non-Calcific Tendinopathy of the Shoulder: A Preliminary Comparative Study

Pietro Romeo^{1*}, Federica Di Pardo¹, Andre Felipe Torres Obando²

¹Periso Academy, Pazzallo, Switzerland

²CR Investigation Institute, Bogotá, Colombia, USA

RESEARCH ARTICLE

Open Access

CrossMark

Modulation of long-term potentiation-like cortical plasticity in the healthy brain with low frequency-pulsed electromagnetic fields

Enrico Premi^{1,2*} , Alberto Benussi², Antonio La Gatta³, Stefano Visconti⁴, Angelo Costa¹, Nicola Gilberti¹, Valentina Cantoni², Alessandro Padovani², Barbara Borroni² and Mauro Magoni¹

Research Article

The Effects of Low-Frequency High-Intensity Pulsed Electromagnetic Fields (Diamagnetic Therapy) in the Treatment of Rare Diseases: A Case Series Preliminary Study

Felipe Torres Obando^{1,3}, Pietro Romeo^{2,3*}, Diego Vergara¹, Federica di Pardo³, Adriana Soto¹
